

THE REFRIGERATOR DEMYSTIFIED

40% of food in the U.S. is never eaten. Stocking your fridge with these tips will help your food stay fresh the longest.

1 TEMPERATURE
40°F or below to help food last longer.

2 HUMIDITY DRAWERS
The levers on crisper drawers change humidity. Set one to high and one to low.

3 THE UPPER SHELVES
Warmer. Store leftovers and drinks.

4 DOOR
Warmest! No milk or eggs here, best for butter, condiments, and drinks.

5 HIGH-HUMIDITY
Most veggies, especially those that wilt.

6 LOW-HUMIDITY
Fruits, along with veggies that may break down and rot.

7 LOWER SHELF
Meats and fish are better off at the bottom—it's usually the coldest and reduces risk of contamination.
